

Statistics Colloquium 251  
Professor Daniel R. Jeske  
Fall 2004

Scheduled Guest Speakers

- 09/28: Olga Korosteleva, Dept. of Mathematics, CSU Long Beach  
The Spread of Branching Diffusion: Sharp Asymptotics
- 10/05: Ashwin Sampath, Texas Instruments, San Diego, CA  
Signal-To-Interference-Plus-Noise Ratio Estimation for Wireless Communication Systems:  
Methods and Analysis
- 10/12: Michael Stephens, Simon Fraser University  
EDF Statistics and some Applications
- 10/19: Harold Dyck, Dept. of Information & Decision Science, CSU San Bernardino  
Consulting & Collaboration with Trader Joe's: Developing a Forecasting Decision Support  
System Prototype
- 10/26: Payal Shah, Sean Cox, Minh Lih and Nan Sun, UCR  
TBA
- 11/02: Janet Mhyre, Dept. of Mathematics, Claremont College  
Combining Disparate Test Data: A Bayesian Solution
- 11/09: Richard Levine, Dept. of Mathematics and Statistics, San Diego State University  
Implementing Componentwise Hastings Algorithms
- 11/16: Mahtash Esfandiari, Dept. of Statistics, UCLA  
Testing for upper level thinking in lower division and upper division statistics classes and the role  
of technology
- 11/23: John Adams, Rand Corporation  
Measuring the Process-Outcome Link in Health Services Research

Colloquia scheduled Tuesday at 3:45 pm  
Stat/Comp. Room 2674
